

L. D. College of Engineering
Internal hackathon for SIH - 2025

Date:25/09/2025

L. D. College of Engineering, Ahmedabad organized an institute level internal hackathon to shortlist the teams to be registered for Smart India Hackathon-2025 on 25/09/2025 at Block no. 2 of the institute.

Total 137 teams (622 students, 511 male and 111 female) of students have participated in this event. Total 81 teams of software category and 56 teams of hardware category participated in the event. As per the guidelines of Smart India Hackathon – 2025, and to encourage female participation in innovative projects, each team consists of at least one female student as a member. The participants of the institute have worked on 70 different problems put forward by various ministries of Government of India as well as problems from various PSUs. Out of them, 36 software problems and 34 problems of hardware categories were chosen by the participants to work upon. To evaluate and shortlist the teams, 14 judges having industrial/academic experience in various fields were invited.

The registration process was started at 10:00 AM on September 25, 2025 near WRM hall at block no.2. Total 137 teams with 622 students reported for the event.

After registration, the program was inaugurated by respected principal and hackathon coordinators of the institute along with invited juries.

Once inauguration session is completed, students were allocated appropriate space with necessary logistic support to work on the problem. The necessary resources were provided by the institute to respective teams and subsequently students started their project setup accordingly. From around 11:30 AM to 1:00 PM, participants worked on the solving the defined problems and made themselves ready for presentation and demonstration.

The software teams were divided in 8 different tracks and hardware teams were divided in 6 different tracks for the evaluation process. Each track was evaluated by a separate judge assigned to it. The jury members visited all the participating teams of their assigned track for evaluation purpose. Total 14 juries were invited and they evaluated the teams based on following uniform criteria:

1. Clarity and details in the prescribed format(Problem Understanding)
2. Novelty of the idea
3. Complexity
4. Feasibility
