

## Event Report: Startup Product Exhibition – 30 January

**Event Title:** Startup Product Exhibition

**Date:** 30 January 2026

**Time:** 4:00 PM – 8:00 PM

**Venue:** Swarnim Startup Innovation University

**Total Visitors:** Approx. 200

On 30 January, a Startup Product Exhibition was successfully organized at Swarnim Startup Innovation University from 4:00 PM to 8:00 PM. The exhibition aimed to showcase innovative products and solutions developed by incubated and associated startups, and to create interaction opportunities with government delegates, faculty members, and students.

A total of **12 startups** set up exhibition stalls and demonstrated their products, technologies, and services. The participating startups represented diverse sectors including healthcare, agriculture, clean energy, automotive, branding, research, gaming, and sustainability.

### Participating Startups:

1. Swarnim Health Care Products
2. Hari Ropan
3. Nucleon
4. Wet Coal
5. AZE Automotive Pvt. Ltd.
6. Green Aesthetics
7. Dream Vision
8. Resobrand
9. Battle Mitra (eGaming)
10. Tatvamasi Research Pvt. Ltd
11. Ashwina Group Pvt. Ltd.

The exhibition was attended by **delegates from the Government of Gujarat**, along with internal faculty members and a large number of students. Visitors interacted directly with founders and startup teams, observed live product demonstrations, and discussed use cases, market potential, and technology aspects. The stalls received steady footfall throughout the event duration.

The event provided startups with a valuable platform for visibility, feedback, and networking. It also helped students and faculty gain practical exposure to innovation-driven entrepreneurship and product commercialization.

Overall, the exhibition achieved its objective of promoting startup innovation, strengthening stakeholder engagement, and fostering an entrepreneurial ecosystem within the university campus.
