

## Event Report On Project Pitching & Prize Distribution Ceremony

**Event Organized By:** Krishna Centre of Startups & Entrepreneurship (KCSE), KPGU Vadodara, under the aegis of Krishna Educational Foundation

**Event Date:** 29th January 2026

**Event Location:** Auditorium 1

**Mode of Conduct:** Offline

### Objective of Activity

- To provide a platform for students to present innovative project ideas and startup concepts before a panel of experts.
- To encourage creativity, problem-solving, and entrepreneurial thinking among students through constructive feedback and recognition.
- To acknowledge outstanding projects through awards and prizes, motivating students toward innovation-driven careers.

### Description of the Activity:

The Project Pitching & Prize Distribution Ceremony was organized as part of the Capacity Building Program on Emerging Technologies conducted at KPGU, Vadodara. The event brought together aspiring innovators, student teams, faculty mentors, and industry experts to showcase promising projects and technology-based solutions.

Participating teams presented their project ideas, prototypes, and business concepts before a panel of judges. The presentations highlighted innovative approaches to addressing real-world challenges using emerging technologies. The jury evaluated the projects based on originality, feasibility, technical implementation, societal impact, and scalability.

Following the pitching sessions, the evaluation committee announced the best-performing teams. Winners and outstanding participants were recognized and awarded prizes for their innovative contributions. The event fostered a spirit of healthy competition, collaborative learning, and entrepreneurial development among students.

The ceremony also provided students with valuable insights into project commercialization, startup opportunities, and pathways for transforming innovative ideas into impactful solutions.

### Key Outcomes:

- Enhanced student engagement in innovation and project-based learning
- Improved presentation, communication, and pitching skills
- Recognition of innovative student projects and ideas
- Increased awareness of entrepreneurship and startup opportunities
- Encouragement for interdisciplinary collaboration and problem-solving

**Number of Participants:** 175

### Target Audience:

Engineering students, innovators, startup aspirants, project teams, and faculty mentors.

### Collaborating Departments/Organizations:

- Krishna Centre of Startups & Entrepreneurship (KCSE)
- Krishna Educational Foundation
- Faculty of Engineering & Technology, KPGU Vadodara

### Feedback & Testimonials:

Participants expressed enthusiasm about the opportunity to present their ideas before experts and receive constructive feedback. Students appreciated the recognition provided through prizes and certificates, which motivated them to pursue innovation, research, and entrepreneurial activities. Faculty members noted the positive impact of the event in strengthening students' confidence, technical competence, and problem-solving abilities.
