Introduction:

The Department of Innovation & Entrepreneurship organized a **Startup Project Pitching Activity** for BHMS Internship Students on 30th June 2026 at the Incubation Centre. The activity was designed to provide students with a practical platform to present their startup ideas and entrepreneurial concepts before an expert jury panel.

The event encouraged students to think innovatively, identify real-world problems, and propose practical business solutions through structured startup presentations. Students showcased their ideas by explaining the problem statement, proposed solution, target users, uniqueness of the idea, and potential impact.

Objectives of the Activity:

- a) To encourage entrepreneurial thinking among students.
- b) To provide students with practical exposure to startup pitching.
- c) To enhance presentation and communication skills.
- d) To develop confidence in explaining business ideas before a jury panel.
- e) To motivate students to identify innovative and impactful business opportunities.

Activity Description:

During the activity, students presented their startup project ideas in front of the jury members through a structured pitching session. Each team was allotted time to explain their startup concept, business model, problem-solving approach, innovation, and future scope.

The jury members evaluated the presentations based on creativity, feasibility, clarity of presentation, innovation, and social impact. They also interacted with students by asking questions and providing valuable suggestions for improving their startup ideas.

The activity created an engaging and competitive learning environment where students actively participated and demonstrated enthusiasm toward entrepreneurship and innovation.

The students were divided into eight groups, and each group presented a unique startup project during the pitching session. All the groups confidently explained their product concepts, business opportunities, and market potential before the jury members.

Student Participation:

Students participated actively with great enthusiasm and confidence. The pitching session reflected their creativity, innovative thinking, and understanding of practical business challenges. Students effectively communicated their startup ideas and responded positively to the questions and feedback provided by the jury members.

The activity also promoted teamwork, idea validation, and entrepreneurial awareness among the participants.

Outcomes of the Activity:

- a) Enhanced understanding of startup pitching and entrepreneurial presentation.
- b) Improved communication, presentation, and public speaking skills.
- c) Increased confidence in presenting innovative business ideas.
- d) Better understanding of problem-solving through startup solutions.
- e) Encouragement toward innovation, entrepreneurship, and business development

Conclusion:

The Startup Project Pitching Activity was successfully conducted for BHMS Students by the Department of Innovation & Entrepreneurship. The activity provided students with an excellent opportunity to present their innovative startup ideas and gain practical exposure to entrepreneurial thinking and business pitching.

The interaction with the expert jury members motivated students to refine their ideas and develop a stronger entrepreneurial mindset. Overall, the activity proved to be highly

informative, interactive, and beneficial for the students' professional and entrepreneurial

development.
