Event Description and Key Outcomes of the Event:

SPARK TANK 2.0, organized under the CHARUSAT Startup & Innovation Center (CSIC-CHARUSAT) and the Entrepreneurship Cell (E-Cell), was conducted as a flagship initiative to promote innovation, entrepreneurship, and startup culture among students. The event was organized as part of CHARUSAT's continued participation in NEC-2026, IIT Bombay, strengthening the university's entrepreneurial ecosystem.

The event provided students with a platform to present innovative ideas, explore entrepreneurial opportunities, and receive expert feedback and mentoring. A total of 20 teams presented their innovative ideas, showcasing creative and technology-driven solutions to address real-world problems. The participants gained insights into problem identification, solution development, feasibility, market potential, innovation, and the process of transforming an idea into a potential startup.

Based on the evaluation of the presented ideas, three teams were recognized for their outstanding performance. Deval Brahmhatt and Aena Patel secured the Winner position. Netra Pahilwani and Nandini Shah were awarded First Runner-up, while Darshan Thummar, Shreeja Upadhyay, and Vishv Undavia secured the Second Runner-up position.

The event enhanced students' awareness of entrepreneurship and encouraged them to develop innovative solutions with potential for real-world implementation and commercialization. It also provided participants with an opportunity to interact with mentors, refine their ideas, and understand the practical aspects of developing a startup.

Overall, SPARK TANK 2.0 successfully fostered a culture of innovation, creativity, problem-solving, and entrepreneurship at CHARUSAT. The initiative strengthened the E-Cell ecosystem and encouraged students to move from ideas to innovation and from innovation to startups.
