

Vishwakarma Government Engineering College, Chandkheda

EVENT SUMMARY REPORT

SSIP 2.0, IIC & Entrepreneurship Cell Awareness Session

Date of Event: August 12, 2026

Organizing Bodies: SSIP Cell, IIC & E-Cell

By : Prof. H.A.Joshiyara & Prof. P.J.Patel

Student Coordinators :- Prince Prajapati, Yashpal Patel

1. Executive Overview

On August 12, 2026, a comprehensive awareness session was successfully organized to educate and inspire students regarding the institutional startup ecosystem. The session brought together three pivotal frameworks—the Student Startup and Innovation Policy (SSIP 2.0), the Institution’s Innovation Council (IIC), and the Entrepreneurship Cell (E-Cell). The primary goal was to bridge academic knowledge with entrepreneurial execution, encouraging participants to convert their technical ideas into commercially viable ventures.

2. Core Ecosystem Pillars & Key Initiatives

- **SSIP 2.0 Framework:** Detailed the financial assistance, proof-of-concept (PoC) grants, and patent filing support available to student innovators. It highlighted how early-stage research projects can leverage state level innovation schemes to scale prototyping.
- **Institution’s Innovation Council (IIC):** Emphasized the structured calendar activities, mentorship programs, and national leadership rankings designed to foster problem-solving methodologies, design thinking, and intellectual property awareness on campus.
- **Entrepreneurship Cell (E-Cell):** Highlighted the peer-driven startup community, leadership roles, incubation networking, and hands-on workshops offered to help students build venture readiness, pitching competence, and business acumen.

3. Key Session Outcomes & Impact

The session successfully demystified the path from conceptual ideation to formal startup incubation. Key outcomes achieved during the event include:

- **Funding & Incubation Roadmaps:** Students gained clarity on accessing seed grants, prototype development funds, and institutional lab infrastructure.
- **IPR & Patent Support:** Participants were briefed on simplified patent filing mechanisms and institutional backing for legal/IP workflows.
- **Active Engagement:** An interactive Q&A session addressed student queries regarding team formation, mentor pairing, and grant evaluation criteria.

4. Next Steps & Recommendations

To capitalize on the momentum generated, the organizing committee recommends launching immediate call-for-ideas, conducting specialized design-thinking bootcamps, and providing dedicated office hours for teams preparing their SSIP 2.0 funding proposals.

Attendance
